EDUCATION

Modern Institute of Technology and Research Centre College, Alwar June 2025
Bachelor of Technology in Artificial Intelligence and Data Science
CGPA 8.00

Adinath Public School, Alwar Feb 2020
Senior Secondary in PCM
Percentage:84%

About Me: Motivated and detail-oriented Frontend Developer with a strong foundation in web technologies. Passionate about designing and developing responsive, user-centric websites using modern tools such as React.js, Tailwind CSS, and Bootstrap. Eager to contribute to a collaborative team and grow in a fast-paced tech environment.

TECHNICAL SKILLS

Programming Languages: Visual Basic, C, Java, Python
Frontend Tech: HTML5, CSS3, JavaScript, React.js, Router & Redux
Styling: Tailwind CSS, Bootstrap, SASS, Material UI, Framer Motion
Version Control: Git, GitHub

PROJECTS

Weather App — React.js, OpenWeather API Sept - Oct 2025

- Developed a real-time weather application fetching live data using APIs.
- Integrated React hooks for efficient state management and dynamic UI updates.

Task Manager App — React.js, Tailwind CSS Sept - Oct 2025

- Created a task tracking web app with CRUD operations.
- Used local storage for data persistence and enhanced interactivity.

Portfolio Website — React.js, Tailwind CSS, Framer Motion, AOS Jan- Feb 2026

- Developed a fully responsive personal portfolio website using React.js, Tailwind CSS, and JavaScript to showcase projects and technical skills.
- Implemented smooth animations and interactive UI components using Framer Motion, improving user engagement and visual experience.
- Integrated AOS (Animate On Scroll) to create scroll-based animations for sections and components.
- Built reusable React components and optimized performance to ensure a clean, modern, and responsive user experience across devices.

SOFT SKILLS

- **Problem Solving:** Able to analyze issues logically and develop efficient, practical solutions quickly.
- **Team Collaboration:** Work effectively with team members by communicating clearly and supporting shared goals.
- **Communication Skills:** Communicate ideas and technical concepts in a clear, simple, and professional manner.
- **Attention to Detail:** Ensure accuracy and quality by carefully reviewing work and catching small errors early.
